

Dome Hockey

Put the base of the dome hockey table down where you want it to be.

Next grab the top dome part of the table and place it on top of the base. It just sits on the base securely, there's nothing to screw in.

Turn the scoreboard on. There is no power cord, it is all battery powered, so if the scoreboard does not turn on just change the batteries. There are batteries inside the kit.

Once power is on and the table is placed where you want it to be, just put a small black hockey puck inside the dome.
