

Ping Pong Table

- Take one half of the ping pong table and open it up.
- Take the other half and open up so both are together.
- Lock the wheels.
- On the legs of each table there are adjustable rubber feet. If the table is not completely level, adjust these by twisting them till it is a completely flat surface.
- In the ping pong accessories kit, there are two red clamps.
- Place 1 clamp at the middle of the table on one side.
- Repeat step 6 on the opposite side.
- Now put the net on by sliding the one end down the post of the red clamp. Do the same on the other side of the table with the other end of the net.
